

Franklin M.

LOEW Lecture Series at Becker College

Fall 2014

The Franklin M. Loew Lecture Series is a public forum that invites scholars and professionals to present lectures on topics of interest and importance to the Becker College community and the public.

Satellites and Startups:

How we went to space and why you should too

- Monday, September 15, 2014, 5:30 p.m. -

Join Spire's Nick Allain for a first-hand look at how Silicon Valley's space race is heating up and how satellites, the size of a large coffee, are changing the way we listen to signals from Earth. Nick will speak about what it's like to join a space startup like Spire, the process of building a cubesats, and how you can get involved – and, maybe even get hired.

Nick, from Charlton, MA, is an alumnus of Becker College. He graduated in 2009 with a bachelor of arts in interactive media. He has spent time in the game industry and higher education. He now lives and works in the Bay Area.

This special talk is co-sponsored by MassDiGI. Light snacks and refreshments will be available.

Location: Becker College, Weller Academic Center, Room 210, 61 Sever St., Worcester
